

# Fondo Solidario Allfunds

2020 Annual Report

## ► History and Mission

The Allfunds Charity Fund was founded in 2015 with the idea of providing assistance to the development and training of the underprivileged through donations. It is based on the principle of good faith, to be applied rigorously, in all global aid projects using voluntary donations from individuals, companies and from Allfunds itself.

The Allfunds Charity Fund's functional goal is to contribute to social development and carry out social projects that benefit people. It makes firm commitments to help the development of the local communities in which Allfunds conducts its business as well as in other places in need of assistance.

Allfunds will follow the guidelines and criteria below:

- ✓ A Committee has been set up to ensure objective project selection based on consensus.
- ✓ The selection of global projects will consider security criteria, performing an in-depth analysis of each project submitted.
- ✓ Operations that do not respond to community or aid work will be avoided.
- ✓ The Allfunds Charity Fund committee will present an annual report detailing the projects financed in the year and the amounts donated.

The new approach established by the Allfunds Charity Fund to centralise all the aid from now on is to operate through a dedicated crowdfunding platform ([www.fondosolidarioallfunds.com](http://www.fondosolidarioallfunds.com)) supported by the Spanish charity foundation iHelp.
