I. INTRODUCTION

A basic action principle established in the Code of Conduct of ALLFUNDS is to provide the same opportunities of access to work and professional promotion, ensuring the absence of discrimination based on gender, sexual orientation, race, religion, family roots, nationality, age, disability, language, marital status or social condition, political ideology, political or union affiliation, or any other characteristics that is not objectively related to working conditions.

Therefore, it is Allfunds' policy to ensure equality of treatment and opportunity for all its employees in recruitment, training, career opportunities, or any other aspect of the working relationship.

We live in a diverse and multicultural society and companies must reflect this reality in order to provide an adequate response to the specific needs of our clients. Ensuring diversity within the different teams helps the company face challenges from different angles, which translates into more innovative and creative solutions. In this sense, Allfunds understands diversity as a strategic value that facilitates constant evolution and innovation in the way we work and interact with our clients.

Therefore, Allfunds aims to ensure that any employee involved in internal and external recruitment, selection and professional promotion processes will be guided objectively in their actions and decisions, with an open attitude to diversity and with the purpose of identifying the people who are most suitable for the profile and needs of the position to be covered, promoting equal opportunities at all times.
